ABOUT US

Eventzpro Consult was originally registered under the business names Act in June 2009 until November 2022 when as a result of strategic change in corporate direction, the organization was incorporated as a limited liability company.

OUR BUSINESS OPERATING AREAS

- Organizational Development consulting (Business and idea conceptualisation services, Conduct of baseline research, Conduct midterm project evaluation, Conduct of end-term project evaluation, Creation and supervision of sustainable social and economic business models through strategic planning, strategy design and implementation, Turnaround management services for enterprises in distress, Management coaching for young entrepreneurs, Training and development of employees)

- Agribusiness projects Management (managing agric commodity value chain actors and processes relating to agribusinesses).

- Procurement and Logistics supply (ethanol, dried cassava, processed tomatoes among others)

- Engineering Procurement and Construction (EPC) project management

- Events Management

VISION STATEMENT

To be an unmatched Organizational Development firm; nationally entrenched and continentally recognized.

MISSION STATEMENT

We exist to fill the knowledge and expertise gap of developmental and economic units towards building sustainable corporate systems that facilitate learning, growth and wealth creation.
We hope to achieve this through;

- Persistent efforts at meeting deadlines
- Good client relationship and selfless efforts leading to client delight
- Application of good management practices
- Hiring the best talent to constitute our operational and management team
- Application of top-notch technology for service delivery.

SERVICES

Our services cut across the following;

- Business and idea conceptualisation services: with this service, we hold our clients through a bespoke process of converting their raw ideas into bankable and sustainable ones that can appeal to their prospective stakeholders under the strict oath of professional secrecy. It covers both social enterprise (not-for-profit) and business enterprise (for-profit) ideas.

We Have Packages For The Following:

- Business plan development, fund raising and project implementation (factory construction, corporate governance system set-up, recruitment, training & development, machinery installation supervision and commissioning of factories)

- Conducting baseline research: By this service, we conduct baseline research for development organizations, Civil Society organizations and community based organizations towards furnishing them with rich data required to develop project proposal and documents. We further make recommendations and even help develop project Monitoring, Evaluation and Leaning (MEL) plans that is a critical element required for project success and sustainability.

- Conducting mid-term project evaluation: Project progress in terms of relevance, effectiveness and efficiency need to be tracked and reported to key stakeholders to ensure prompt delivery of Key Performance Indicators (KPIs) and confidence among project financiers. In close team work with our client, we execute a professional mid-term review with good adherence to time.

- Conduct of end-term project evaluation: We conduct end-term project evaluation/assessment services for clients. Relevant social and financial impact assessment indicators are tested in line with initial project desired outcomes. Our ultimate goal for this kind of assignment is to attain testable findings that will guide us towards making comprehensive recommendations for learning and growth for our client's subsequent projects and programmes.

- **Creation and supervision of sustainable social and economic business models through strategic planning, strategy design and implementation.**

- **Turnaround management services for enterprises in distress:** We provide these services for mostly struggling enterprises. We facilitate organizational restructuring and effective links to affordable sources of funding for stability and growth. This is done in close alliance with an affiliate organization called Turnaroundhelp Consult.

- Management coaching for young entrepreneurs: We train, nurture and coach potential and existing young entrepreneurs through the rough realities of starting and growing a business to the point of self-reliance. This is done in close alliance with an affiliate organization called Turnaroundhelp Consult.

- Training and development of employees: We develop customised training modules and sessions for clients. Beyond that, we undertake the following standardised modules for our clients. Each course is fully treated within five [5] days and the content for each program could be customized to suit the pressing needs of the requesting institution.

06 Mining Services And Construction

Mining consumables include chemicals (cyanide, acids, solvents, ANFO, barite), drilling components (bits, rods, hammers, screens), lubricants and coolants, personnel and equipment protection (PPE, flame retardants), support materials (conveyor belts, hangers, props), and explosives (ANFO). These are all materials that are consumed, worn out, or used up during the mining process.

Chemicals

Mineral extraction: Cyanide, sulfuric acid, and other solvents separate minerals from ore.

Blasting: Ammonium nitrate and fuel oil (ANFO) are used to blast tunnels and rock.

Drilling fluids: Detergents, polymers, and foaming agents are used in drilling operations.

Other: Nitric acid, barite, and shale inhibitors are also used in mining.

Drilling Components

Bits: Tungsten carbide insert bits, tri-cone bits, and roller cutters are used to break rock.

Drill rods and parts: Drill rods, hammers, and centralizers are used to transfer power to the drill bit.

Screens: Stainless steel screens are used in drilling operations.

Lubricants and Coolants

High-performance lubricants, extreme-pressure lubricants, and synthetic lubricants are used to reduce friction in equipment.

Engine coolants are used to manage the temperature of mining machinery.

Personnel and Equipment Protection

PPE: Personal protective equipment, including safety slings, is essential for worker safety.

Flame retardants: Materials that resist ignition and protect equipment from fire.

Support Materials

Conveyor belts: Used to move materials from one place to another.

Hangers and props: Used for supporting roofs and pipes in underground mines.

Dewatering supplies: Materials used to remove water from mine sites.

Explosives

ANFO: A mixture of ammonium nitrate and fuel oil used for blasting.

Mining Steel Ball: used in ball mills to crush and grind ore, facilitating the extraction of valuable minerals.

Ongoing Own Projects

(Business Units)

a. Dry Cassava Processing Factory (at Adeiso & Dambai)

I. Set up two independent dry cassava plants in two selected cassava growing hubs in Ghana that secure an all-year-round supply of fresh cassava. These plants should be operational before April 2024 when the rainy season would have effectively set in.

II. Run operations effectively to ensure that, both plants consistently produce a minimum of 1,000MT of dried cassava each month.

III. Implement a highly green operational system that uses solar power and recycles solid waste into bio-char and liquid waste reusable forms for continuous production.

IV. Institute a GMP (Good manufacturing practices) compliant factory management system to achieve ISO certification by the 8th year of continuous operation.

V. Ensure a minimum gross profit margin ratio of 29% at all times.

PRODUCT LINES AND MARKET ANALYSIS

The cassava processing plant will produce the following products:

- **Dried Cassava Chips:** Targeting the food industry, valued at $150 billion globally. The plant will produce unique chips, leveraging sustainable sourcing for a competitive edge. Projected annual revenue is $2.1 million, with a 30% gross margin.

- **Cassava Flour:** Addressing the growing gluten-free flour market, expanding at 10% annually. The plant will produce high-quality flour for the baking industry. Projected annual revenue is $4.3 million, with a 35% gross margin.

- **Pharmaceutical-Grade Cassava Starch:** Supplying the pharmaceutical starch market, valued at $10 billion. The plant will produce high-purity starch for pharmaceutical applications. Projected annual revenue is $6.5 million, with a 40% gross margin.

- **Biochar:** Catering to the expanding biochar market, growing at 15% annually, for soil amendment. The plant will produce biochar from cassava waste, offering carbon sequestration benefits. Projected annual revenue is $1.4 million, with a 50% gross margin.

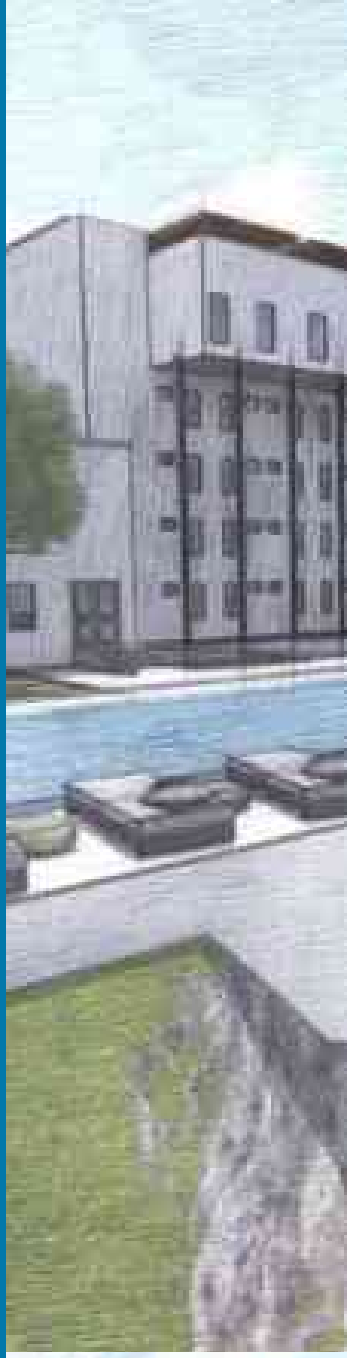

- **Gari:** Targeting the regional cassava-based food market, estimated at over $20 billion globally and growing steadily, the proposed gari processing plant will produce high-quality fortified and flavored gari for domestic consumption and export within West Africa and niche international markets. With sustainable cassava sourcing from smallholder farmers and efficient mechanized production, the project is projected to generate annual revenues of GHS 10–15 million (≈USD 800,000–1.2 million) at a conservative 25–30% gross margin, ensuring profitability and scalability while supporting local agriculture.

PROFESSIONAL PROFILES

DR. ELVIS K. AGYAPONG -
Finance Director

RESEARCHER | ACCOUNTANT | FINANCIAL ANALYST

Dr. Elvis Agyapong is a highly motivated and accomplished researcher, chartered accountant, and financial analyst with extensive experience in financial markets, institutions, and macroeconomic interrelationships. With a PhD in Business Administration (Finance) from the Ghana Institute of Management and Public Administration, he has developed strong analytical, research, and communication skills.

As an academic, Dr. Agyapong has published extensively in reputable peer-reviewed journals and serves as a reviewer for leading finance and economics journals. His research focuses on emerging economies, financial stability, macroeconomic risk, and development finance.

In addition to academia, Dr. Agyapong has a solid professional background in financial management, having served in leadership roles at Kasapreko Public Company Limited, Distell Ghana Limited, and Nestlé. His expertise spans management accounting, financial control, and strategic financial planning.

He is also an experienced facilitator, delivering training on IFRS, financial management, and quantitative methods at various institutions. His technical proficiency includes advanced use of Stata and EViews for economic modeling and financial analysis.

Driven by a passion for economic research and financial sector development, Dr. Agyapong continues to bridge the gap between academia and industry through his work in research, teaching, and financial consultancy.

DERRICK KWESI APPIAH -
Non-Executive Director

ENTREPRENEUR | CEO | BUSINESS STRATEGIST

Derrick Kwesi Appiah is a dynamic entrepreneur and visionary leader, serving as the CEO of **New Height Logistics** and **Prestige Home**, in Connecticut, USA. With a keen business acumen and a strategic mindset, he has built and scaled successful enterprises in logistics and real estate, driving growth, innovation, and operational excellence.

At **New Height Logistics**, Derrick Kwesi Appiah has established a reputation for delivering seamless, efficient, and reliable supply chain solutions. Under his leadership, the company has expanded its reach, optimizing freight management and transportation services to meet the evolving needs of businesses nationwide.

As the driving force behind **Prestige Home**, a premier real estate and property management firm, Derrick Kwesi Appiah is committed to providing high-quality residential and commercial properties. His expertise in market trends, investment strategies, and customer-centric service has positioned the company as a trusted name in the Connecticut real estate sector.

A results-oriented leader, Derrick Kwesi Appiah excels in business development, financial management, and strategic partnerships. His commitment to innovation and operational efficiency has propelled his companies to new heights, earning industry recognition and client trust.

Beyond business, Derrick Kwesi Appiah is a mentor and philanthropist, actively supporting community development initiatives. His passion for entrepreneurship, coupled with his unwavering dedication to excellence, continues to inspire those around him.

DR. KWAME FOSU BOATENG -
Chief Executive Officer

FINANCE EXPERT | ACADEMIC | BUSINESS CONSULTANT | ORGANIZATIONAL STRATEGIST

Dr. Kwame Fosu Boateng is a distinguished finance expert, academic, and business consultant with extensive experience in financial management, strategic business development, and organizational growth. Currently a **PhD Candidate in Management (Finance)** candidate at Walden University, USA, he holds an **MPhil in Finance** and a **BSc in Banking and Finance** from the University of Ghana Business School. He is also a **Fellow of the Chartered Institute of Credit Management Ghana (CICMG)** and a dedicated researcher in banking, public debt, and financial policy.

As a **lead lecturer in Strategic Management** at the Graduate School of the **University of Professional Studies, Accra (UPSA)**, Dr. Boateng has shaped the minds of future business leaders for over a decade, specializing in **Banking, Investment Analysis, Corporate Finance, and Business Strategy**. Beyond academia, he is an accomplished consultant, having successfully managed **Eventzpro Consult Ltd. since 2009.** Under his leadership, the firm has facilitated over GHS **400 million** in long-term debt financing for businesses in Ghana, developed winning financial models, and supported private and public sector organizations with project management, business strategy, and corporate governance solutions.

His expertise spans **financial modeling, risk management, stakeholder engagement, and sustainable business development.** He has played a key role in major national and international projects, including Enhancing Growth for New Enterprises (DFID-funded) and Fairtrade Africa's financial and social impact assessments across multiple African countries. He also co-founded Christ Co-operative Credit Union (CCCU) and the Chartered Institute of Credit Management Ghana (CICMG) to advance financial inclusion and credit risk management in Ghana.

An advocate for economic transformation, Dr. Boateng continuously contributes to policy discussions, research, and consulting in finance, project management, and industrial development. With a deep commitment to excellence, innovation, and knowledge sharing, he remains a key force in shaping Ghana's financial and business landscape.

RUBY DAIKIE AGORVOR -
Director of Human Resource and Administration

ADMINISTRATIVE DIRECTOR | HR MANAGER | BUSINESS STRATEGIST

Ruby Daikie Agorvor is a seasoned Human Resource Management (HRM) practitioner and Chartered Banker with extensive experience in corporate administration, talent management, and business operations. As the Administrative Director and HR Manager of Eventzpro Consult Ltd, a leading consulting firm specializing in Agricultural Development, Engineering,

Procurement and Construction (EPC) Project Management, Organizational Development, Agribusiness, and General Import & Export, Ruby Daikie Agorvor plays a pivotal role in driving organizational efficiency and workforce optimization.
With a **BSc in Banking and Finance** and a Chartered Banking qualification, Ruby Daikie Agorvor possesses a strong foundation in financial management, business strategy, and corporate governance. Her expertise extends to HR policy development, talent acquisition, employee engagement, and leadership training, ensuring that Eventzpro Consult Ltd operates with a high-performance culture.

Throughout her career, Ruby Daikie Agorvor has successfully implemented HR strategies that enhance productivity, foster employee development, and align workforce capabilities with business goals. Her ability to streamline administrative processes, manage cross-functional teams, and oversee compliance with industry regulations has significantly contributed to the company's growth and operational excellence.

Beyond HR and administration, Ruby Daikie Agorvor is deeply involved in strategic planning and business development, supporting Eventzpro Consult Ltd in expanding its footprint across multiple industries. Her leadership has been instrumental in fostering partnerships, driving organizational change, and ensuring the seamless execution of large-scale projects.

A results-driven and people-centric leader, Ruby Daikie Agorvor continues to be a driving force behind the company's success, championing best practices in human resource management, financial oversight, and corporate administration.

THERESS RUSSEL PAMFORD -
Non- Executive Director

SUPPLY CHAIN EXPERT | LOGISTICS STRATEGIST | OPERATIONS LEADER

Theress Russel Pamford is a highly skilled supply chain expert with extensive experience in logistics, procurement, and operations management. As a Ghanaian professional with a deep understanding of both local and international supply chain dynamics, he has successfully led end-to-end supply chain strategies that enhance efficiency, cost savings, and operational excellence.

With a strong background in **inventory management, supplier negotiations, and process optimization,** Theress Russel Pamford has worked with leading organizations to streamline supply chain operations, ensuring seamless product flow from sourcing to delivery. His expertise in demand forecasting, warehouse management, and distribution networks has helped businesses in Ghana and beyond achieve scalability and resilience in a competitive market.

Passionate about **supply chain innovation and sustainability,** Theress Russel Pamford leverages **data-driven decision-making and emerging technologies** to improve logistics performance. His leadership in procurement and vendor management ensures high-quality standards while maintaining cost efficiency.

Beyond his corporate achievements, Theress Pamford Russel is committed to **mentorship and capacity building,** training the next generation of supply chain professionals in Ghana. He actively participates in industry forums and collaborates with stakeholders to drive economic growth through effective supply chain solutions.

With a track record of excellence, strategic vision, and a results-oriented approach, Theress Russel Pamford continues to be a key player in shaping the future of supply chain management in Ghana and beyond.
